

Thanks for confirming that you have a **short-term timeline (6-12 months)** for carrying out the project!

Here's a concise summary of the information collected:

- Sector: Commercial
- Subsector: Hotel
- Cost of Water: 180 MXN/m<sup>3</sup>
- Water Consumption: 280 m<sup>3</sup>/day
- Wastewater Generation: 120 m<sup>3</sup>/day
- Occupancy: 20 to 50 people
- Main Water Use: Pool and Spa
- Water Source: Municipal Water
- Primary Goal: Cost Savings/Return on Investment
- Objective for Reuse: Irrigation of Green Areas
- Current Discharge Method: Sewer System
- Additional Restrictions: None
- Existing Systems: None
- Estimated Budget: 100,000 to 500,000 MXN
- Timeline: Short-term (6-12 months)

■ **Relevant fact:** A short-term timeline allows for quicker implementation of water treatment solutions, which can lead to faster cost savings and improved sustainability.

Now, I'll prepare a comprehensive proposal based on all the information we've gathered.
